BOE Finds San Joaquin County Assessor's Office Meets Standards

Sacramento –George Runner, Second District Member of the California State Board of Equalization (BOE), announced a BOE report released today states most properties in San Joaquin County are properly assessed, and the overall quality of the assessment roll meets state standards.

The *San Joaquin County Assessment Practices Survey Report* released January 23, 2013, addresses the quality of the 2010-11 San Joaquin County assessment roll. This roll represents approximately \$53.9 billion in assessed property values. BOE's report presents 16 recommendations for improving the San Joaquin County Assessor's programs, based on fieldwork conducted by the Board's County-Assessed Properties Division from November to December 2010.

BOE's survey reports provide an overview of how well the assessors' duties are performed and identify where improvements should be made. Every assessor is required to identify and assess all properties located within the county – unless specifically exempt – and maintain a database or "roll" of the properties and their assessed values.

Surveying county assessors' practices fulfills the BOE's mission of promoting statewide consistency in property tax assessment among California's 58 counties. Every five years the BOE reviews each county's property tax assessment practices and publishes a survey report.
